Response to Amendment

1. The examiner notes the amendment of 10/25/2004. This amendment has obviated the previous rejections stated in the Office Action of 4/19/2004.

Allowable Subject Matter

- 2. Claims 1-11, 14-20 and 34 are allowed.
- 7. The following is an examiner's statement of reasons for allowance:

Although the MBE method of deposition of quaternary thin epitaxial films was known in the art, that art did not disclose or suggest the use of the claimed gaseous precursor (H₃YCN) in such a MBE processes. The examiner acknowledges the known prior existence of the gas composition. However, there was no prior art suggestion to use the specified gas as the precursor in MBE processes (see Kern et al. in Journal of Materials Research 1993 and 1998 from IDS).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
